

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

COLDS, &c.**

P A I N

Is the warning given of the presence of disease, and of the disarrangement and prostration of the nervous and muscular system. In order to cure disease, and rid the system entirely of its cause, our first great desideratum is to stop the pain—strengthen the nervous energy—invigorate healthy action—the functions and secretions of every organ in the system; this we accomplish by the marvellous strengthening, cleansing, invigorating, and powerful pain soothing properties of Radway's Ready Relief. No matter what the cause of pain be—if it arises from nervous prostration, muscular debility, disarrangement of the functions of the liver, or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhœa, bowel complaints, chills and fever, whether it originates from internal derangements or external injuries—Radway's Ready Relief, taken internally, and applied externally, will speedily and effectually stop the pain and cure its cause.

**PRINCIPAL OFFICE, 162 FULTON STREET,
NEW YORK.**

**Sold by Bristol, Moore & Thornton, Buffalo,
AND BY DRUGGISTS GENERALLY.**

ASSOCIATION FOR THE RELIEF OF THE POOR.

Organized in the winter of 1849—50. This Society has for its object the suppression of three great evils:—indiscriminate alms-giving, professional begging, and the actual wants of the poor. To carry out the plan of the Association, the city has been divided into 57 districts, with a visitor located in each. A map and directory have been prepared, by which an applicant for alms can be directed at once to the visitor within whose district he or she resides, who examines the case, and, if relief is really needed, the visitor gives an order on the Treasurer. The funds of the Association are raised by voluntary subscription; and every annual contributor, and every visitor, is a member. The following are the officers, with the exception of the Ward Committees and Storekeeper.

THE NEW POSTAGE LAW.

AN ACT to reduce and modify the rates of postage in the United States,
and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, from the thirtieth day of June, eighteen hundred and fifty-one, in lieu of the rates of postage now established by law, there shall be charged the following rates, to wit: For every single letter in manuscript, or paper of any kind upon which information shall be asked for, or communicated, in writing, or by marks or signs, conveyed in the mail, for any distance between places within the United States, not exceeding three thousand miles, when the postage upon such letter shall have been prepaid, three cents, and five cents when the postage thereon shall not have been prepaid; and for any distance exceeding three thousand miles, double these rates for every such single letter or paper; when conveyed wholly or in part by sea, and to or from a foreign country, for any distance over twenty-five hundred miles, twenty cents, and for any distance under twenty-five hundred miles, ten cents, (excepting, however, all cases where such postage has been, or shall be adjusted at different rates by postal treaty or convention, already concluded or hereafter to be made;) and for a double letter, there shall be charged double the rates above specified; and for a treble letter, treble those rates; and for a quadruple letter, quadruple those rates; and every letter or parcel not exceeding half an ounce in weight, shall be deemed a single letter; and every additional weight of half an ounce, or additional weight of less than half

an ounce, shall be charged with an additional single postage. And all drop letters, or letters placed in any post office, not for transmission, but for delivery only, shall be charged with postage at the rate of one cent each; and all letters *shall* hereafter *be* advertised as remaining over or uncalled for in any post-office, shall be charged with one cent in addition to the regular postage, both to be accounted for as other postages now are.

SEC. 2. *And be it further enacted*, That all newspapers not exceeding three ounces in weight, sent from the office of publication to actual and *bona fide* subscribers, shall be charged with postage as follows, to wit: All newspapers published weekly only, shall circulate in the mail free of postage, within the county where published, and that the postage on the regular number of a newspaper published weekly, for any distance not exceeding fifty miles out of the county where published, shall be five cents per quarter; for any distance exceeding fifty miles, and not exceeding three hundred miles, ten cents per quarter; for any distance exceeding three hundred miles, and not exceeding one thousand, fifteen cents per quarter; for any distance exceeding one thousand miles, and not exceeding two thousand miles, twenty cents per quarter; for any distance exceeding two thousand miles, and not exceeding four thousand miles, twenty-five cents per quarter; and for any distance exceeding four thousand miles, thirty cents per quarter; and all newspapers published monthly, and sent to actual and *bona fide* subscribers, shall be charged with one-fourth the foregoing rates; and on all such newspapers published semi-monthly, shall be charged with one half the foregoing rates; and papers published semi-weekly shall be charged double those rates; tri-weekly, treble those rates; and oftener than tri-weekly, five times those rates. And there shall be charged upon every other newspaper, and each circular not sealed, handbill, engraving, pamphlet, periodical, magazine, book, and every other description of printed matter, which shall be unconnected with any manuscript or written matter, and which it may be lawful to transmit through the mail, of no greater weight than one ounce, for any distance not exceeding five hundred miles, one cent; and for each additional ounce, or fraction of an ounce, one cent; for any distance exceeding five hundred miles, and not exceeding one thousand five hundred miles, double those rates; for any distance exceeding one thousand five hundred miles, and not exceeding two thousand five hundred miles, treble those rates; for any distance exceeding two thousand five hundred miles, and not exceeding three thousand five hundred miles, four times those rates; for any distance exceeding three thousand five hundred miles, five times those rates. Subscribers to all periodicals shall be required to pay one quarter's postage in advance; in all such cases the postage shall be one half the foregoing rates. Bound books and parcels of printed matter not weighing over thirty-two ounces, shall be deemed mailable matter under the provisions of this section. And the postage on all printed matter other than newspapers and periodicals published at intervals, not exceeding three months, and sent from the office of publication to actual and *bona fide* subscribers, to be prepaid; and in ascertaining the weight of newspapers for the purpose of determining the amount of postage chargeable

thereon, they shall be weighed when in a dry state. And whenever any printed matter on which the postage is required by this section to be pre-paid, shall, through the inattention of postmasters, or otherwise, be sent without pre-payment, the same shall be charged with double the amount of postage which would have been chargeable thereon if the postage had been pre-paid; but nothing in this act contained shall subject to postage any matter which is exempted from the payment of postage by any existing law. And the postmaster general, by and with the consent of the president of the United States, shall be, and he is hereby, authorized to reduce or enlarge, from time to time, the rates of postage upon all letters and other mailable matter conveyed between the United States and any foreign country, for the purpose of making better postal arrangements with other governments, or counteracting any adverse measures affecting our postal intercourse with foreign countries; and postmasters at the office of delivery are hereby authorized, and it shall be their duty, to remove wrappers and envelopes from all printed matter and pamphlets not charged with letter postage, for the purpose of ascertaining whether there is upon or connected with any such printed matter, or in such package, any matter or thing which would authorize or require the charge of a higher rate of postage thereon. And all publishers of pamphlets, periodicals, magazines, and newspapers, which shall not exceed sixteen ounces in weight, shall be allowed to interchange their publications reciprocally, free of postage: *Provided*, That such interchange shall be confined to a single copy of each publication: *And provided, also*, That said publishers may enclose in their publications the bills for subscriptions thereto, without any additional charge for postage: *And provided, further*, That in all cases where newspapers shall not contain over three hundred square inches, they may be transmitted through the mails by the publishers to *bona fide* subscribers at one fourth the rates fixed by this act.

Sec. 3. *And be it further enacted*, That it shall be the duty of the postmaster general to provide and furnish to all deputy postmasters, and to all other persons applying and paying therefor, suitable postage stamps of the denomination of three cents, and of such other denominations as he may think expedient, to facilitate the pre-payment of the postages provided for in this act; and any person who shall forge or counterfeit any postage stamp provided or furnished under the provisions of this or any former act, whether the same are impressed or printed on or attached to envelopes or not, or any die, plate, or engraving therefor, or shall make or print, or knowingly use or sell, or have in his possession with intent to use or sell, any such false, forged, or counterfeited die, plate, engraving, or postage stamp, or who shall make or print, or authorize or procure to be made or printed, any postage stamps of the kind provided and furnished by the postmaster general as aforesaid, without the especial authority and direction of the post office department, or who, after such postage stamps have been printed, shall, with intent to defraud the revenues of the post office department, deliver any postage stamps to any person or persons other than such as shall be authorized to receive the same by an instrument of writing, duly executed under the hand of the postmaster general, and the seal of the

post-office department, shall on conviction thereof, be deemed guilty of felony, and be punished by a fine not exceeding five hundred dollars, or by imprisonment not exceeding five years, or by both such fine and imprisonment; and the expenses of procuring and providing all such postage stamps and letter envelopes as are provided for, or authorized by this act, shall be paid, after being adjusted by the auditor of the post office department, or the certificate of the postmaster general, out of any money arising from the post office department.

SEC. 4. *And be it further enacted*, That it shall be the duty of every postmaster to cause to be defaced, in such manner as the postmaster general shall direct, all postage stamps attached to letters deposited in his office for delivery, or to be sent by mail; and if any postmaster, sending letters by the mail, with postage stamps attached, shall omit to deface the same, it shall be the duty of the postmaster to whose office such letters shall be sent for delivery, to deface the stamps, and report the delinquent postmaster to the postmaster general. And if any person shall use, or attempt to use, in prepayment of postage, any postage stamp which shall have been before used for like purposes, such persons shall be subject to a penalty of fifty dollars for every such offence, to be recovered, in the name of the United States, in any court of competent jurisdiction.

SEC. 5. *And be it further enacted*, That lists of letters remaining uncalled for in any post office, in any city, town, or village, where a newspaper shall be printed, shall hereafter be published once only in the newspaper which, being issued weekly or oftener, shall have the largest circulation within the range of delivery of said office, to be decided by the postmaster general, under such regulations as shall be prescribed by him, at a charge not exceeding one [three] at such office, at such time, and under such regulations as the postmaster-general shall prescribe; and at a charge of one cent for each letter advertised. And the postmaster at such office is hereby directed to post in a conspicuous place in his office a copy of such list, on the day or day after the publication thereof; and if the publisher of any such paper shall refuse to publish the list of letters as provided in this section, the postmaster may designate some other paper for such purpose. Such lists of letters shall be published once in every six weeks, and as much oftener, not exceeding once a-week, as the postmaster-general may specially direct: *Provided*, That the postmaster-general may, in his discretion, direct the publication of German and other foreign letters in any newspaper printed in the German or any other foreign language, which publication shall be in lieu of or in addition to the publication of the list of such letters in the manner first in this section provided, as the postmaster-general shall direct.

SEC. 6. *And be it further enacted*, That to any postmaster whose commissions may be reduced before the amount allowed at his office for the year ending the thirtieth day of June, eighteen hundred and fifty-one, and whose labors may be increased, the postmaster-general shall be authorized, in his discretion, to allow such additional commissions as he may deem just and proper: *Provided*, That the whole amount of commissions allowed such postmaster during the fiscal year

shall not exceed by more than twenty per cent. the amount of commissions at such office for the year ending the thirtieth day of June, eighteen hundred and fifty-one.

SEC. 7. *And be it further enacted,* That no post office now in existence shall be discontinued, nor shall the mail service on any mail route in any of the States or Territories be discontinued or diminished, in consequence of any diminution of the revenues that may result from this act; and it shall be the duty of the postmaster-general to establish new post offices, and place the mail service on any new mail routes established, or that may hereafter be established, in the same manner as though this act had not passed: *And provided, further,* [That the compensation of no postmaster shall be diminished in consequence of the passage of this act.]

SEC. 8. *And be it further enacted,* That there shall be paid to the post office department, in further payment and compensation for the mail service performed for the two houses of congress and the other departments and offices of the government in the transportation of free matter, the sum of five hundred thousand dollars per year, which shall be paid quarterly, out of any moneys in the Treasury not otherwise appropriated; and the moneys appropriated to the post office department by the twelfth section of the act "to establish certain post routes and for other purposes," approved March third, eighteen hundred and forty-seven, and remaining undrawn in the Treasury, shall continue subject to the requisition of the postmaster-general, for the service of the post office department, notwithstanding the same may have so remained so undrawn for more than two years after it became subject to such requisition.

SEC. 9. *And be it further enacted,* That there is hereby appropriated, out of any moneys in the Treasury not otherwise appropriated, the sum of five hundred thousand dollars, to supply any deficiency that may arise in the post office department.

SEC. 10. *And be it further enacted,* That it shall be in the power of the postmaster-general, at all post offices where the postmasters are appointed by the President of the United States, to establish post routes within the cities or towns, to provide for conveying letters to the post office, by establishing suitable and convenient places of deposit, and by employing carriers to receive and deposit them in the post office; and at all such offices it shall be in his power to cause letters to be delivered by suitable carriers, to be appointed by him for that purpose, for which not exceeding one or two cents shall be charged, to be paid by the person receiving or sending the same; and all sums so received shall be paid into the post office department: *Provided,* The amount of compensation allowed by the postmaster-general to carriers shall in no case exceed the amount paid into the treasury, by each town or city, under the provisions of this section.

SEC. 11. *And be it further enacted,* That from and after the passage of this act, it shall be lawful to coin, at the mint of the United States and its branches, a piece of the denomination and legal value of three cents, or three-hundredths of a dollar, to be composed of three-fourths silver and one-fourth copper, and to weigh twelve grains and three

eighths of a grain; that the said coin shall bear such devices as shall be conspicuously different from those of the other silver coins, and of the gold dollar, but having the inscription "United States of America," and its denomination and date; and that it shall be a legal tender in payment of debts for all sums of thirty cents and under; and that no ingots shall be used for the coinage of the three cent pieces herein authorized, of which the quality differs more than five thousandths from the legal standard; and that, in adjusting the weight of the said coin, the following deviations from the standard weight shall not be exceeded, namely—one-half of a grain in the single piece, and one pennyweight in a thousand pieces.

Approved, March 3, 1851.

OPENING AND CLOSING OF THE HUDSON RIVER.

The days on which navigation has been resumed between New York and Albany, during the last four years, are as follows :—

1851, Feb. 25. Steamboat Oregon arrived, direct from New York, being the first boat which left that city this season for Albany. We believe this is the first instance in which the first boat which has left New York for Albany has been enabled to get through.

1850, March 9. Steamboats Hudson and Buffalo arrived.

1849, March 18. Steamboat Columbia arrived at 2 A. M.

1848, March 22. Steamboat Admiral arrived at 4 P. M.

The following table exhibits the date of the opening and closing of the Hudson River, and the number of days open, from 1830 to the present time :—

(At the old stand of F. W. BREED, who continues in the new firm.)

Having been long extensively engaged in the manufacture and sale of

**B O O K S,**

are prepared to furnish every article in their line, at the lowest prices. Obtaining in exchange for their own publications, most Books from the Eastern Publishers, they are thereby enabled to sell them, like their own Books, at a small advance on first cost of manufacture. Particular attention is invited to their new editions of

**QUARTO FAMILY BIBLES,**

in various styles of binding; and also to their assortment of

**SCHOOL AND SCHOOL LIBRARY BOOKS,**

**MEDIUM, CAP, AND LETTER PAPER,**

obtained directly from the heaviest manufacturers in the country; and

**STATIONERY,**

bought for cash of Importers, will be sold at the lowest possible rates.

Western dealers can generally duplicate here, all their New York bills, at the same prices, or less.

such as are adapted and usually purchased for country sale, which they will sell on as favorable terms as any of the Eastern Houses.

Having an extensive Bindery connected with their establishment, they are enabled to supply orders for all the varieties of blank work, in the best manner, and at the shortest notice.

Officers of Banks, and Clerks of County Courts, will find our blank books equal, if not superior, to any they ever had in use, and orders by country merchants will be promptly attended to.

Particular attention will also be paid to all orders, through country merchants or by mail, for law, medical, and miscellaneous books, for public and private libraries, and no effort will be spared to complete all such orders on the most reasonable terms.

Country dealers will find it to their advantage to call and examine our large stock before making their purchases in the eastern cities.

Our Terms — CASH or approved credit. Our motto — “SMALL PROFITS ON NUMEROUS TRANSACTIONS.”

AGENTS WANTED to sell new and valuable publications, to whom a liberal discount will be made. All communications should be addressed, post paid, to GEO. H. DERBY & Co. Publishers and Booksellers, Buffalo.

# KUMBEL'S PATENT, MACHINE STRETCHED LEATHER BANDING,

THE ONLY PATENTED BAND IN THE UNITED STATES,

Which has again been honored with the highest premium a Gold Medal, (and the only bands which have ever received a Gold Medal in this country,) from the American Institute at the Fair of October 1849, after being severely tested in competition; thus recognizing, from a most thorough practical and public trial, that rank and position which the manufacturing community has long since assigned it, as the

## BEST LEATHER BAND

MANUFACTURED IN THE UNITED STATES.

This Banding is made of the solid part only, of the BEST OAK LEATHER, is thoroughly stretched, cemented, and rivitted, will run straight, and has a perfect bearing upon the pulleys.

From the superior mode of its manufacture, it possesses remarkable STRENGTH AND DURABILITY, beyond any Banding manufactured. It also excels, in its running qualities, any Band made upon other principles, or of other materials.

The Belt made of leather, is the only one that can be relied upon to perform well in all situations. It neither melts with friction, sticks to the pulleys, nor frets into shreds; nor is it subject to sudden combustion and destruction; all which are marked characteristics of Beltings made from gums.

The Patent Machine Stretched Leather Banding, as made by the subscriber, will stand more heat, more cold, more friction, and is far more durable than those above referred to, and for all practical purposes; it can also be made water proof.

The best evidence of its quality is its adoption by nearly all extensive MANUFACTURERS and MACHINISTS throughout the city and country, the RIVER AND SOUND STEAMERS, and (with marked approbation) by the various lines of OCEAN STEAMERS. Since its introduction by the subscriber, it has revolutionized machinery to the general exclusion of gearing; and the approval of *practical mechanics* is further emphatically expressed by the steady increase in the demand for it from year to year. Every belt is warranted to possess all the qualities requisite for durability and good performance, or the money returned.

They can be furnished of any length or width, from 1 to 30 inches, either single, double, or round.

Also, superior Lace Leather, with rivets, burrs, punches, sets, &c.

WILLIAM KUMBEL,  
ORIGINAL INVENTOR AND MANUFACTURER,  
No. 33 Ferry Street, New York.

**GWYNNE'S PATENT**  
**BALANCED CENTRIFUGAL PUMP,**  
**AND GWYNNE'S PATENT**  
**DOUBLE-ACTING BALANCED WATER WHEEL.**

**THIS PUMP** has a rotary movement, and works without valves, eccentrics, or other contrivances which consume power in friction.

It will discharge a quantity of water fully equal to 90 per cent. of the driving power—a result attained by no other pump.

Its economy in use, simplicity in construction, durability and exemption from damage, are apparent on examination.

Its cost, measured by the proportionate quantity of water discharged, is below that of all other pumps now used.

This Pump is all that can be desired for a Fire Engine; for, its economy of power, ease of motion in working, the great distance to which it will force water, and certainty of being at all times ready for use, make it invaluable to the city, town, ship-owner and manufacturer.

From the foregoing facts, the Company recommend, with entire confidence, the Patent Balanced Centrifugal Pump, guaranteeing its perfect adaptation for steamers, ships, and vessels of all descriptions, manufactories, paper mills, tanneries, drainage and irrigation, coffer dams, dry docks, mines and quarries, fire engines, railroad water stations, &c.

Regular sizes, embracing twelve varieties, and capable of discharging from 25 gallons up to 15,000 gallons per minute, and to any height not exceeding 480 feet, will be kept constantly on hand. Extra sizes, up to 100,000 gallons per minute, for draining marshes, dry docks, supplying canals, or for water works for large cities, will be furnished on reasonable notice.

**THIS WATER WHEEL**

Is offered to the public in the confidence that, both commercially and practically, it will be found to give satisfaction where adopted, and to secure the following advantages:

*First.*—A great saving in the amount of water consumed by the best wheels now in use.

*Second.*—A saving of 33 to 50 per cent, on the first cost; the amount varying, of course, with the situation in which the wheel might be placed.

*Third.*—The advantage that, when used as a tidal wheel, it would maintain a continuous movement, both with the rise and fall of the tide; giving, in cases in which the load is proportioned to the head of water, a nearly uniform motion to the machinery.

*Fourth.*—The desideratum, so long needed, that, when erected on mill streams subject to floods, or large accumulations of back water, its operation is as perfect as under the most favorable circumstances.

*Last.*—A perfect adaptability to all situations, and a simplicity, compactness, and stability of construction, by which a non-liability to get out of order is guaranteed.

**UNION POWER COMPANY, 96 John Street, New York.**  
**J. STUART GWYNNE, ENGINEER AND MANAGER.**

# Vertical Tubular Diaphragm BOILER

MONTGOMERY'S PATENT.

The immense advantages resulting from the use of this Boiler to Manufacturers, Steamboat Proprietors, Flouring Mills and parties using Steam Power in any manner, induce the proprietors to bring it more prominently before the public.

## THE ADVANTAGES ARE:

**FIRSTLY**—The great economy attained by the use of this Boiler, after a series of trials extending over a period of three years; Boilers upon this principle are now at work in situations occupied previously by the common sort of boilers, and have produced more steam with fifty per cent. less fuel.

**SECONDLY**—Their compactness, or the smallness of the space required for them; for Steamboats, and particularly Ocean Steamers, these two considerations outweigh all others.

**THIRDLY**—The perfect manner in which the circulation of the water in this boiler is provided for, thus preventing the deposit of sediment on surfaces where the fire acts, and also preventing the unequal expansion of the tubes, by keeping them constantly filled with water.

In addition to the Steamers and Stationary Engines, on which this Boiler has been already introduced, it has been recently adopted in the New U. S. Coast Survey Steamer, *Tom Corwin*; new Steamer for Philadelphia and Boston Steam Navigation Co.; new Steamer *Fremont*, *Sandusky City*; Steamer *Telegraph*, No. 1, Lake Erie; new Steam Propeller *Bay State*, Lake Ontario; Steamer at Oswego, for Lake Ontario; and also at the Erie Railroad Works, Detroit Hydraulic Works, Messrs. Johnson, Fuller & Cox, Troy, N. Y.;

*And in several Paper and Flouring Mills in this and other States.*

# BLAKE'S Patent Fire Proof Paint.

The original and only genuine article that can be sold without infringement upon my Patent.

This article, in a few months after being applied, turns into slate or stone, forming a complete enamel or coat of mail over whatever is covered, bidding defiance to fire, weather, or water. It has been found, upon analization by Dr. J. R. Chilton, of this city, to consist of larger proportions of Silica, Alumina, Protoxide of Iron, and Magnesia, with lesser of Lime and Carbon. The transition, therefore, from the soft paint to the hard slate is, in the opinion of Drs. Chilton and Lock, accounted for according to Nature's own laws, and the longer it is on the harder and more permanent it becomes. It has been tested about seven years and where first applied is now like a stone. It has also been tried in several fires in Akron, Ohio, where all the Fire Insurance Companies have since published they will insure buildings &c. covered with this substance at a lower rate of premium than those covered with Tin or Zinc, considering it a better fire proof.

The Fair of the American Institute have, for the three last years, awarded to me the Highest Premiums. Diplomas have also been presented from the New York State Fair and the State Fair of Mass.

## LOOK OUT FOR FRAUD,

As there are scores of unprincipled individuals digging, grinding and endeavoring to sell all kinds of worthless counterfeit stuff, calling it Fire Proof Paint. No one can manufacture and sell the genuine without infringing my patent, which, having been submitted to referees and also to the Hon. Daniel Webster, is decided to be good and valid. I have just commenced three suits against different parties and am determined to prosecute every person who infringes the patent, and those individuals who have given credence to the pirates will soon have an opportunity of defending themselves before a court of justice.

The original and genuine Patent Fire Proof Paint either in dry powder or ground in oil can at all times be had at the General Depot,

## Destruction of RATS and MICE,

WARRANTED WITHOUT FAIL.

PRINCIPAL DEPOT, 424 BROADWAY, NEAR CANAL ST.

READ THE FOLLOWING LETTERS.

NEW YORK, October 1, 1850.

I have made a chemical examination of the Vegetable Powder prepared by Mr. EMANUEL LYON, for the purpose of destroying insects. I do not find it to contain anything deleterious to health, or what might be considered poisonous to the human species; but it is very destructive to insects, who never they are forced to inhale the fine particles or dust occasioned by throwing the Powder forcibly in places where they frequent.

JAMES R. CHILTON, M. D. Chemist.

EMANUEL LYON, Esq.

NEW YORK HOSPITAL, June 1, 1850.

Dear Sir:—It affords me great pleasure in stating that I have extensively used your Powder for the destruction of Insects of all kinds, (especially Bed Bugs and Roaches,) and unhesitatingly pronounce it the best and only article so effectual in its operation. I have also experimented with your Pills, and find them equal in all respects with your statements. Hoping that you may prosper, I remain your friend.

JOHN L. ROOME, Superintendent N. Y. Hospital.

# DR. S. M. GIDDING'S FAMILY MEDICINES.

## DR. S. M. GIDDING'S VEGETABLE & COUGH SYRUP, FOR DISEASES OF THE LUNGS.

### COUGH SYRUP & PANACEA, FOR PURIFYING THE BLOOD.

#### Liniments, Cholera, and Diarrhoea Preparations.

*Office, 177 Broadway N. Y. and 193 Atlantic St. Brooklyn.*

**THE COUGH SYRUP.**—For Consumption and all diseases of the Lungs; Bronchitis, Catarrhal Coughs, Colds, Whooping Cough, and Coughs of all kinds; Sore Throat, Dyspeptic, Asthmatic, Dropsical and Spinal Affections; Pain in the Side, Back, and Chest; Bleeding at the Lungs; Liver Complaint; Debility, &c. For the above diseases, it is not surpassed by any preparation extant, and only wants trying to recommend and extend its use. It is free from all opium and all deleterious drugs and can be safely and beneficially used.

**THE UNRIVALED LINIMENT.**—For Salt Rheum, Ringworms, Rheumatism, Cuts, Bruises, Cramps, Head Ache, Quinsy, Sore Throat, Chilblains, Pains in the Joints or Limbs, Chapped Hands, Erysipelas, Scald Head, Dandruff, Tooth Ache, Burns, Ulcerated Sores, and all Eruptions of the Skin. It has been used with great success in cases of Croup and tight Cough, by freely rubbing the Chest, or parts affected, so as to cause a free circulation. Also, in severe cases of Colic or Diarrhoea, by using ten drops, internally, in a little brandy.

**THE PANACEA.**—For the cure of Scrofula, Ulcerated Scrofula and Scrofulous Affections of the Bones, Membranes, Erysipelas, Fever Sores, Fistula, Kings Evil, Scald Head, Scurvy, Pile, Dandruff, and all Cutaneous diseases; Eruptions of the Skin, or Pain in the Bones, and Ulcers arising from an injudicious use of Mercury, or an impure state of the Blood.

This Panacea for clearing the Pimples and Eruptions from the face and restoring it to its usual freshness and beauty, is unsurpassed. It is valuable in regulating obstructed or Excessive Menstruation, Fluor, Albus, Spinal Complaints, Nervousness, Debility, Inflammatory and Chronic Rheumatism, Chronic Sore Eyes, Jaundice, Fever and Ague, and all impure diseases of the body.

## DR. KELLINGER'S EFFORTS

*Are now Appreciated in Every quarter of the Globe.*

His Great Remedies have and will continue to astonish the whole world. He is the first and only person that ever has been able to obtain the praise and support of the Faculty—the wealth—and distinction of the whole country, from the merits of his Remedy and his own personal energies. He has not built himself up by and through the labor of a deceased friend or relative, as ninety-nine-hundredths who have amassed immense fortunes during the history of Patent Medicines have done. Get one of Dr. K.'s Circulars of any of the Druggists, at the Depot, 230 Pearl, or the Central Point, 476 BROADWAY, between Grand and Broome streets, and you will see a class of persons never before alluded to by any proprietor of a patent medicine, and in the limited number here referred to there are cures surpassing any heretofore shown by any other known remedy.

The Doctor has not sat down and medicated for the few. He has not made it his business to make the rich richer—by confining the sales of his remedies to a few mammoth firms—of any class—but on the contrary, it has gone abroad unshackled and unlimited to any number, and at prices to suit all classes and conditions of the human family. It is sold in bottles from 1s. to 2s. each; from \$1 to \$8 per dozen, cash invariably, or an approved note. No agencies granted for the future on any other terms. The remedies are adapted to every class and character of disease, and have never failed in the space of seven years, and in the sale of nearly

**2,000,000 OF BOTTLES.**

As a proof of the above we here give a few cures and references among many thousands:

Mr. Elijah Blakeman was cured of an awful attack of sciatic rheumatism, with which he had been afflicted over twenty years; it is six years since, and he has not had the slightest return. Residence, 3d Avenue, near Wm. D. Sparks' Four Mile House. Mr. S. knows all the circumstances of this wonderful cure.

### ***Another still Greater Cure of Rheumatism.***

Mr. Arnold Mason, the senior partner in the firm of Law, Roberts & Mason, the builders of the stupendous bridge over the Harlem river—was cured, after medicating to no good effect. It is nearly seven years, and he has been entirely free from pain ever since. Residence, in Utica, N. Y. In corroboration of the above we most respectfully refer to Mr. George Law and the Hon. Daniel Dodge, of New York city. These are no random assertions as are generally resorted to.

### **ANOTHER ASTOUNDING CURE.**

Is that of the lady of Lieutenant Thomas Brownwell, of the UNITED STATES NAVY—who had been under medical treatment for 16 years—for an injury sustained on the front part of the leg, from a fall. Dr. K. took the case in hand, guaranteed and made an entire cure. Mrs. B. walks as if she never took a lame step. It is nearly four years since. Through the above medium this great Remedy has been used for years in the family of our highly distinguished Statesman, the Hon. John A. Dix, of the United States Senate, who speaks of it as an existing wonder.

### **Another Wonderful Cure of Neuralgia.**

The Hon. Anson Wills, of 1112 Broadway, writes us that he was confined for nearly eight months to his apartment, suffering the most excruciating pains and forced to use his staff the whole of the time, was entirely cured before he had used two bottles. Don't be deceived—call and get the Judge's own statement and, you will, if you have any doubts, give them up. As another astounding evidence of the curative effects of this Magic Remedy, we offer the case of the Hon. Moses H. Grinnell, who, some 3 years since, was riding to the steamboat landing at Yonkers, when one of the bolts which held the shafts came out going down the hill, the horses took fright and threw Mr. Grinnell, son and coachman upon the ground. Mr. G. and son escaped with little injury; but the coachman was thrown upon his face and head with a most frightful concussion, breaking the nose flat to the face. The accident occurred on Thursday morning, and on the following day, Friday, he received Mr. G. at the landing without a mark to be seen. Mr. G. was perfectly astonished, and as a natural consequence, inquired what had been done. It is three years since

Mr. G. has been referred to, but the facts have not been published before from this reliable and highly respectable source. The Faculty and the wealthy families, generally, throughout the city and country became acquainted with its merits.

It is also used by Irvings, Costars, Bradhursts, Livingstons, Raes, Hamiltons, Ludlows, Morriszes, Lorrillards, Depoes, of Depoe Island, Carmins, of Carminsville, by ex-Alderman R. P. Getley, Mr. Ja. J. Herrick, firm of H. L. Van Buskirk, Broad st., Wm. T. Porter, editor, and Mr. John Richards, publisher of the Spirit of the Times, &c. &c.

### STILL ANOTHER RAISED ALMOST FROM THE DEAD.

Mr. Lewis Lent, the celebrated equestrian manager and proprietor, was cured by this Great Remedy in a few days, of what his physicians thought consumption, brought about by a neglected and deep seated cough, while abroad. He returned from San Francisco pale and dejected, and the general feelings of his friends were that he never would get well. He was advised to go into the country, to die in a quiet way. This was literally the meaning of his medical advisers, although they had a different phraseology. Dr. K. heard that Mr. Lent was in town, and called at his hotel, and in a few words told him that he would guaranty to cure him—stating particularly that he would not take a farthing when he commenced, or when he considered himself well. This was done to gain his unwavering confidence as the patient's mind has a great deal to do with any medical treatment. Dr. K. knew his patient better than he did him. As to the soul of liberality of Mr. L. it is understood by all who know him to be equivalent to his now noble and perfect form, which contains a heart as elastic as air and perfectly adapted to every clime and condition of society. To take such a man from the hands of his destroyer—to cure and save him for the world's benefit, was ample pay for Dr. Kellinger.

2,000,000 OF BOTTLES,

Nearly, have been Sold, of Dr. Killinger's

### INFALLIBLE LIVERMENT.

It has been most rigidly tried by the most scientific and practical men in the Union. To a few of the World's highest, and finest judges of the horse, as well as other matters of a general nature, we take pleasure and feel proud of the honor of referring, viz.:—Mr. R. H. Budd, our long tried and distinguished Veterinary Surgeon; Mr. Hiram Woodruff, Isaac Woodruff, Wm. Wheelan, Wm. D. Sparks, Willard L. Reed, Lewis G. Rogers, Edmund Jones, William Cowan, Jacob Somerendyke, John H. Gatfield, George Barnett, G. C. Hathorn, Mr. Harrington, who attends solely to the veterinary department of Messrs. Kipp & Brown's extensive establishment. Among their immense number of horses, he says, after every other article fails, that this great remedy does all they require of it. Its wonderful superiority over all other remedies now offered for sale, for the horse, is, that it heals all manner of sores, cuts, kicks and bruises, and works them daily; it cures the colic instantly, and in all cases breaks up the heaves at the bottom, and performs an entire cure in a few days—unlike the foreign pretended remedies, which at best only answer while you are using them, and as soon as you stop your horses are ten times as bad, having filled their system with poisonous drugs. In addition to the above, Messrs. Jas. Murphy & Brothers, in and about their mammoth establishment, have used in the last four years near 3,000 Bottles. They say that it has never failed to cure heaves, and all other ailments of the horse. If there are any who are disposed to doubt, they will give it up by calling on any of the above. These are not mere idle assertions, but are indisputable facts, not to be set aside.

N. B.—One of the strongest and most convincing proofs of its usefulness is, that about fifty articles have been introduced, all pretending to be far superior, have failed, each and every one of them having Kellinger for their target; and what is most consoling and cheering to us is, that its first friends are now its warmest and best. Most certainly no stronger proof could be given of its wonderful curative properties. Any Merchant who will call on Dr. Kellinger, at his Central Depot, at No. 476 Broadway, shall have all his or their expenses paid, if he fails to satisfy them in every respect. Sold in very large bottles, containing ten times the strength of any other offered, for 50 cents each. \$4 50 per dozen by commission. A large deduction made for cash. At No. 230 Pearl street, and the Druggists and Saddlers generally throughout the city and country. No. 454 Broadway.

This work (the most complete of its kind ever issued) will be found very valuable to those who visit New York to purchase: as by means of it they may purchase at first hand, at considerable saving; and they may arrange their business so as to make a great saving in time.

**Every Country Merchant should procure a Copy.**

"Wilson's Business Directory, published by John F. Trow, 49 Ann Street, in this city, is one of the most useful publications which we have seen. It is a complete business Encyclopedia of the city, and, as a guide and Directory to every merchant and man of business coming into the Great Metropolis, it is certainly invaluable. The book contains all names of persons or firms engaged in business on their own account, in the city of New York, south of Thirtieth street."—*New York Farmer and Mechanic.*

"Wilson's Business Directory is a neat little volume, published by John F. Trow, New York, and is a work of great convenience, if not indispensable to residents of the city, and all who transact business there. Those engaged in one kind of business are grouped under a distinct head, making reference very easy. The work is also furnished with a map, which renders it a useful guide to all strangers in the Island City."—*Troy Budget.*

These articles are intended to take the place of all other soaps as a purifier of the skin, and, by effecting that object perfectly, without injury to the most delicate, will supersede all other cosmetics.

## **TESTIMONIALS.**

The following testimonials to its properties, selected from among a multitude of the same kind, are deemed sufficient to induce a trial, after which nothing more will be necessary to insure its adoption.

**JAMES R. CHILTON**, Esq. chemist, of New York, says: "I have been using your 'Panariston Shaving Soap' for several weeks, and do not hesitate to say that it is the best soap for shaving that I have ever used. The ladies of my family who are using your 'Cytherean Cream of Soap,' are delighted with it, and emphatically declare that it leaves the skin in a more soft and pleasant condition than they have ever been able to produce by any other toilet soap."

**DR. TICKNOR**, of the U. S. Navy, says: "It possesses all the good qualities which you ascribed to it, and I cannot doubt that when its superior excellence becomes known, you will find a ready sale for all you can make."

**DR. A. A. HAYES**, of Boston, chemist and State Assayer, says: "I have never met with any soap compound, which, in cleansing the most delicate skin, would, like this, leave it perfectly moist, soft and healthy. Unlike cosmetics of any kind, it ensures comfort and beauty of surface, by removing matter from, rather than adding it to the skin."

**DR. WALTER CHANNING**, of Boston, says: "I have no memory of so good an article. Nay, I can and do say that it is the very best soap I have ever used."

**DR. L. V. BELLE**, Superintendent of the McLean Asylum, says: "It is superior to any other saponaceous compound I have known. Its employment in the nursery has, in my family, given the highest satisfaction."
